

Automotive Leather Care Kit

Product Information

The Pellé Automotive Leather Care Kit is a two product system for cleaning, conditioning and protecting automotive leather upholstery – containing:

1 x Pellé Automotive Leather Cleaner (250ml)
1 x Pellé Automotive Leather Conditioner & Protector (250ml)

Plus

1 x Pellé Cleaning Brush
1 x Application Cloth

The effectiveness and colour fastness of this kit has been proven using international standards - tested by New Zealand Leather & Shoe Research Association (LASRA) who operate under ISO 9002 & ISO/EMC 17025.

When used regularly, The Pellé Leather Care system has been shown to extend the wear life of upholstery leather up to five times compared to untreated leather (LASRA 2013)

Both components are easy to use, biodegradable and non-toxic.

Feature Benefits

- Industry leading Automotive Leather Care kit comprising Pellé Automotive Leather Cleaner and Pellé Automotive Leather Conditioner & Protector (tested and approved by LASRA)
- Proven to extend wear life of upholstery leather up to five times (per LASRA 2013)
- No mess
- Non Toxic and Biodegradable
- Contains HealthGuard™ protection
- Recommended treatment every three months for private automobiles.
