

Vinyl Reviver

Product Information

Pellé Automotive Vinyl Reviver is specifically intended to assist restore and revive automotive vinyl upholstery.

It is formulated to provide a warm sheen to the vinyl while also applying a protective coating to slow the build-up of dirt and grime.

The effectiveness and colour fastness have been proven using international standards - tested by New Zealand Leather & Shoe Research Association (LASRA) who operate under ISO 9002 & ISO/EMC 17025.

When used in conjunction with Pellé Automotive Vinyl Cleaner, these products provide a comprehensive Vinyl Care system that has been shown to be effective in maintaining automotive upholstery.

This vinyl reviver is easy to use, biodegradable and non-toxic. It also contains HealthGuard™ a full anti-bacterial, anti-fungal and anti-microbial agent which provides protection against mould and bacterial contamination.
