

Pelle Stone Seal + Protect

Product Overview

Pelle Stone Seal + Protect is specially developed to assist in protecting porous stone and concrete type surfaces from permanent staining and everyday soiling. The advanced water-based formula penetrates the surface to help repel oil, grease, dirt and water while maintaining the natural appearance of the stone.

Suitable for granite, marble, limestone, slate, natural and engineered stone surfaces. Not suitable for polished, sealed or non-porous surfaces, or areas exposed to constant water.

How to Use

Before You Start

- Ensure surface is completely clean and dry before application
- Remove all dust, grease, soap residue and stains
- Always test on a small inconspicuous area first
- Use only on porous indoor stone or concrete type surfaces
- Ensure adequate ventilation during application

Clean the surface thoroughly and allow it to dry completely before applying Pelle Stone Seal + Protect.

Apply evenly using a clean cloth, applicator pad or microfibre cloth. Ensure the surface is evenly wet without pooling excess product.

Allow the product to penetrate the surface for approximately 5–10 minutes.

Wipe away any remaining excess product using a clean dry cloth before the surface dries.

Allow surface to cure fully before heavy use or exposure to moisture. Avoid water contact during curing.

Test on a small inconspicuous area before first use.

For Best Results

- Apply in thin, even coats
- Do not allow excess product to dry on the surface
- Use on clean, dry porous surfaces only
- Reapply periodically depending on wear and surface exposure
- For high-use areas, additional coats may improve protection

How to Guide

Pelle Stone Seal + Protect

Usage

Suitable for use on granite, marble, limestone, slate, natural & engineered stone.
Not suitable for polished, sealed or non porous surfaces or areas exposed to constant water.

Pellé products are thoughtfully developed and tested for use on a wide range of household surfaces. As materials and finishes can vary, we recommend testing on an inconspicuous area before full application. Always follow product directions carefully. Pellé accepts no responsibility for damage caused by misuse, incorrect application, or use outside recommended surfaces and guidelines.
