

# How to Use Guide

## Pelle Faux Leather Cleaner

Care for Faux Leather Surfaces

Pellé Faux Leather Cleaner is specially formulated to gently remove everyday dirt, body oils, household marks and surface grime from artificial and synthetic leather surfaces. Suitable for most PU leather, vegan leather, leatherette, pleather and imitation leather finishes.

### Before you begin

Always test in an inconspicuous area before full application.  
Check for colour transfer before use. If colour transfers to your cloth, discontinue use and contact Pellé for advice.  
Always apply to a clean cloth first. Do not apply directly to the surface.  
Do not oversaturate the material.  
Ensure the surface is cool, dry and free from loose dust before cleaning.

### Usage

#### Step 1: Remove Surface Dust

Wipe the surface with a dry microfibre cloth to remove loose dust and debris.

#### Step 2: Apply Cleaner to Cloth

Apply a small amount of Pellé Faux Leather Cleaner to a clean white or light-coloured cloth.

#### Step 3: Clean Gently

Using gentle circular motions, wipe the surface evenly.

Pay particular attention to high-contact areas such as armrests, seat cushions, dining chairs and headboards where oils and dirt naturally accumulate.

#### Step 4: Clean Full Panels

For best results, clean the entire panel rather than treating isolated spots. This helps maintain a consistent appearance across the surface.

#### Step 5: Allow to Dry

Allow the surface to air dry completely before applying any protection products.

#### Step 6: Protect the Surface

Follow with Pellé Faux Leather Protector to help maintain appearance and reduce future dirt build-up.

#### Ongoing Care Tips

Reapply every 3–6 months or as required.

Increase frequency on high-use furniture.

Clean spills promptly.

Avoid prolonged exposure to direct sunlight and excessive heat.

#### Recommended Care System

Pellé Faux Leather Cleaner

Pellé Faux Leather Protector

Pellé products are thoughtfully developed and tested for use on a wide range of household surfaces. As materials and finishes can vary, we recommend testing on an inconspicuous area before full application. Always follow product directions carefully. Pellé accepts no responsibility for damage caused by misuse, incorrect application, or use outside recommended surfaces and guidelines.
