

# How to Use Guide

---

## Pellé Leather Conditioner/Protector

Care for Leather Surfaces

Pellé Leather Conditioner & Protector nourishes, softens and protects finished leather by replacing essential conditioning oils while leaving a protective barrier that helps resist everyday dirt, body oils and wear. Suitable for pigmented, protected, top-coated and semi-aniline leather.

**Not suitable for aniline leather. Use Pellé Leather Revitaliser instead.**

---

## Before you begin

Always clean the leather first using Pellé Leather Cleaner.  
Test in an inconspicuous area before full application.  
Shake well before use.  
Apply to a clean, soft cloth—never directly onto the leather.  
Ensure the leather is completely dry before conditioning.

---

## Usage

### Step 1: Prepare the Surface

Ensure all dirt, oils and residue have been removed using Pellé Leather Cleaner. Conditioning dirty leather can trap contaminants beneath the protective layer.

### Step 2: Apply to Cloth

Apply a small amount of Pellé Leather Conditioner & Protector onto a clean microfibre cloth.

### Step 3: Apply Evenly

Working one panel at a time, apply the conditioner using gentle circular motions. Spread the product evenly across the entire panel.

Avoid treating only small areas

### Step 4: Continue Across the Furniture

Systematically work across all cushions, arms, backs and panels until the entire piece has been conditioned.

### Step 5: Allow to Dry

Allow the leather to dry naturally away from direct sunlight and heat.  
If a higher sheen is desired, lightly buff with a clean dry cloth.

### Ongoing Care Tips

Reapply approximately every six months.  
High-use furniture may benefit from more frequent treatment.  
Clean spills promptly.  
Keep leather away from excessive heat and direct sunlight.

### Recommended Care System

Pellé Leather Cleaner  
Pellé Leather Conditioner & Protector

---

Pellé products are thoughtfully developed and tested for use on a wide range of household surfaces. As materials and finishes can vary, we recommend testing on an inconspicuous area before full application. Always follow product directions carefully. Pellé accepts no responsibility for damage caused by misuse, incorrect application, or use outside recommended surfaces and guidelines.
